

S Corp Modernization Act

April 15, 2013

Dear Member of Congress:

As representatives of America's small and closely-held businesses, we are asking you to take the handcuffs off America's job creators by cosponsoring the "S Corporation Modernization Act of 2013" (HR 892) introduced by Representatives Dave Reichert (R-WA) and Ron Kind (D-WI).

Main Street businesses are the growth engine of America's economy and S corporations are the cornerstone of the business community. There are more than 4.5 million S corporations nationwide. They are in every community and every industry and they employ one out of every four private sector workers.

Yet many of the rules that govern the day-to-day management of S corporations date back more than half a century. These outdated rules hurt the ability of S corporations to grow and create jobs. Many family-owned businesses would like to become S corporations, but the rules prevent them from doing so. Other S corporations are starved for capital, but find the rules limit their ability to attract investors or even utilize the value of their own appreciated property.

Well into the 21st century, America's most popular form of small-business corporation deserves rules adapted to today, not fifty years ago. The S Corporation Modernization Act would ensure the continued success of these businesses by:

- Increasing their access to capital by reducing S corporation ownership restrictions;
- Easing punitive restrictions that apply to converted S corporations and punish the unwary; and
- Encouraging philanthropy by S corporations.

On behalf of America's small business community, we respectfully ask that you cosponsor the S Corporation Modernization Act.

Thank you for your consideration.

Sincerely,

**American Council of Engineering Companies
